Territory Manager | US Foods | Delaware & Chester County, PA | Full-Time Opportunity **APPLY NOW**

The Territory Manager position with US Foods offers an exciting opportunity for candidates interested in sales, business development, and customer relationship management within the foodservice industry. In this role, employees build and maintain client relationships, develop new business opportunities, deliver sales presentations, and collaborate with internal teams to support customer success. US Foods provides extensive training, mentorship, and performance-based incentives, making this a strong opportunity for motivated individuals looking to grow in a fast-paced, team-oriented environment. This full-time, in-person position serves Delaware and Chester County, PA and is ideal for candidates with strong communication, problem-solving, and relationship-building skills.

Editorial Intern | The Christian Science Monitor | Boston, MA **APPLY NOW** (Hybrid) | Fall 2026

Interested in journalism, editing, and storytelling with global impact? The Editorial Intern position with The Christian Science Monitor offers hands-on newsroom experience alongside award-winning editors and writers in a Pulitzer Prize-winning media organization. Interns contribute to daily newsroom operations by posting wire stories, assisting with podcast production, and creating content for the publication's weekly print magazine, with opportunities to pitch and write original stories as well. This hybrid, full-time Fall 2026 internship is based in Boston, MA, pays \$24/hour, and is ideal for students with strong writing, editing, and research skills who are eager to grow in a collaborative newsroom environment.

Regulatory Affairs Intern | Collagen Matrix, Inc. | Paramus, NJ | **APPLY NOW** Summer 2026

The Regulatory Affairs Intern position with Collagen Matrix, Inc. offers students hands-on experience in healthcare compliance and the medical device industry through work supporting regulatory labeling and documentation processes for global submissions. Interns will collaborate with project teams, customers, and suppliers while gaining exposure to FDA and international regulatory standards, label development, and compliance procedures. This full-time, in-person Summer 2026 internship in Paramus, NJ is ideal for detail-oriented students interested in regulatory affairs, healthcare operations, or biomedical industries, with opportunities to strengthen organizational, communication, and technical skills in a fast-paced professional environment.

Pharmacist Floater (FT) | Price Chopper/Market 32 **APPLY NOW**

The Pharmacist Floater position with Price Chopper/Market 32 offers licensed pharmacists the opportunity to provide patient-centered pharmacy care across multiple Pennsylvania locations, including Wilkes-Barre, Dunmore, Montrose, Matamoras, and Wyoming. Pharmacists in this role will dispense medications, counsel patients and healthcare providers, oversee pharmacy operations, and support services such as immunizations and Medication Therapy Management (MTM). This full-time, in-person opportunity is ideal for pharmacy professionals who are passionate about patient care, leadership, and community health, with opportunities to mentor pharmacy interns and technicians while contributing to wellness initiatives and quality improvement programs.

3D Laser Scanning & Drone Survey Engineer Intern | Verdantas | **APPLY NOW**
Wilkes-Barre, PA | Summer 2026

The 3D Laser Scanning and Drone Survey Engineer Intern position with Verdantas offers students the opportunity to work with cutting-edge reality capture technology in the environmental consulting and engineering industry. Interns will assist with field surveying, drone and laser scanning data collection, point cloud registration, drafting, and 3D modeling while collaborating with a team focused on sustainable infrastructure and innovation. This Summer 2026 internship in Wilkes-Barre, PA is ideal for students currently pursuing degrees in engineering or land surveying who are interested in geospatial technology, fieldwork, and emerging digital engineering solutions in a people-focused and collaborative environment.

Process Engineer | onsemi | Mountain Top, PA | **APPLY NOW** Full-Time Opportunity

The Process Engineer – Photo position with onsemi offers engineering graduates the opportunity to work in semiconductor manufacturing supporting photolithography processes used in automotive and consumer applications worldwide. Engineers will collaborate with Device, Process, and Design Engineers in a fast-paced manufacturing environment to improve product performance, increase yield and throughput, and solve complex technical challenges through data analysis and statistical process control techniques. This full-time, in-person opportunity in Mountain Top, PA is ideal for students and recent graduates in chemical, electrical, materials science, physics, or related engineering disciplines who are interested in semiconductor technology, advanced manufacturing, and process improvement.

Transportation Construction Inspector | CDR Maguire Inc. **APPLY NOW** Scranton/Wilkes-Barre

The Transportation Construction Inspector position with CDR Maguire Inc. offers hands-on experience supporting transportation and infrastructure projects throughout PennDOT District 4. Inspectors work with contractors, engineers, and project teams to ensure construction projects meet safety, quality, and contract standards while maintaining project documentation and progress reports. This full-time, in-person opportunity is ideal for candidates interested in civil engineering, construction management, transportation infrastructure, or field inspection work, especially those with PennDOT, OSHA, or construction-related certifications or experience.

APPLY NOW Assistant Coach/Intern Opportunities | Wilkes University

Wilkes University is seeking candidates for multiple Assistant Coach/Intern positions within the Department of Intercollegiate Athletics, including Women's Ice Hockey, Women's Lacrosse, and Women's Wrestling. These part-time opportunities offer aspiring coaches and athletic professionals the chance to gain hands-on experience in collegiate athletics while supporting NCAA Division III programs in recruiting, practice planning, game and event management, student-athlete development, scheduling, and day-to-day team operations. Successful candidates will work closely with athletic department staff to support student-athlete success both on and off the field of play while helping maintain compliance with NCAA and conference regulations. Ideal applicants will have prior collegiate playing or coaching experience in their respective sport, strong communication and organizational skills, and an interest in areas such as coaching, sports management, student development, athletic administration, or higher education. Familiarity with platforms such as HUDL, Teamworks, Front Rush, or Slate is preferred.

These positions require evening and weekend availability and may include optional housing tied to additional responsibilities within Student Success.

The opportunities are well-suited for recent graduates or early-career professionals looking to build experience in collegiate athletics, coaching, recruiting, and student-athlete mentorship.

Fine Arts Fiesta Volunteers Needed | May 14 to 17

Celebrate 70 years of the Fine Arts Fiesta while gaining volunteer experience and giving back to the community! Students can help in the Family Activity Area or Poetry Corner while earning volunteer hours and supporting one of Wilkes-Barre's most vibrant events. Flexible shifts are available between 10:00 a.m. and 5:00 p.m. — even a few hours makes a difference.
